

August 14, 2024

Dear M-DCPS Fathers:

Miami-Dade County Public Schools' Office of Family and Community Engagement invites fathers and father figures to participate in the 12<sup>th</sup> Annual Fathers in Education Day on Thursday, September 26, 2024, at your child's school.

In 2014, a Congressional Resolution designated this date as an opportunity for fathers and father figures to begin volunteering in the schools to support their children's education, and The School Board of Miami-Dade County, Florida, voted and approved Fathers in Education Day as an ongoing district initiative.

Fathers' participation is beneficial to children to see a family member and positive male role model interested in sharing their time. On this day, schools will have activities such as reading or telling stories, sharing a personal hobby or interest, or engaging in educational activities with your child(ren).

We look forward to your participation and encourage our community and businesses to support this 12<sup>th</sup> Annual Fathers in Education Day.

Sincerely,

Ines Meras, District Director  
M-DCPS Office of Family and Community Engagement
